INTERSTUDIO

# PEDESTAL TABLE 900

DESIGNED BY LUX STUDIO

The Conical Pedestal range comes in a range of sizes and finish options, opening up the possibilities and suit seamlessly into any space.
Pedestal is available in laminate and veneer options to allow the chosen finish to be the table's crowning feature.
The table comes with a portruding disc base for stability and support but we can offer design engineering options such as weighted bases and recommend attaching to the floor to avoid this addition.
Options include cable management and hidden castors.

**LEAD TIME** 4-6 weeks
