INTERSTUDIO

Trimo

Designed by Aldis Circensis

LEAD TIME 12-14 weeks

Trimo - an innovative chair in terms of structural logic. The inspiration for this chair comes from the steel architectural trusses often used in bridges and other constructions. The diagonal supports reduce loads an load bearing elements, making the chair thin and light. Several chairs in a line actually look more like bench. Produced without fasteners.

Dimensions
Chair
W400 x D610 x H810mm
Seat Height 475mm

Material:
Available in birch, beech and oak veneer.

MELBOURNE 14-16 EASEY STREET COLLINGWOOD 1300 785 199
