

Christian Flindt, *Designer*

Lead Time: 6 weeks

The Ripple chair is reminiscent of ripples spreading quietly across a water surface. It possesses an elegant form with a beautiful curving back rest and a pleasant seat depth that adapts to the body. The chair features a slim but ultra-flexible shell, without compromising on strength, appearance or comfort. A stackable chair with shell made of ABS with an acrylic top finish that produces a deep, glossy tone. The chair is available in standard colours black and white. Ripple is ideal as a conference chair — but is also perfect for the trendy residence or café. Now available with sled base.
