LEVE

Designer, *Gary Galego*

Lead Time: 6 Weeks

Simple yet expressive, Gary's Leve chair represents an original and sophisticated design solution. The chair's beautiful proportions make it appealingly tactile, but more practically, they also serve as a means of supporting the body comfortably. The beautiful finish and high degree of detailing give what is essentially a manufactured product a hand-crafted appeal. Leve is finished using steamed shaped arms and legs with moulded plywood seat and back.

The Leve chair is finished in Ash timber with a clear lacquer finish, and is suited to almost any indoor, domestic or commercial environment that requires an elegant yet contemporary timber chair. The Leve table is also finished in Ash timber with a clear lacquer finish.
