LULU

Lead Time: 10 -12 weeks

Inspired by an open flower Lulu comes to full blossom on your wall. Lulu is a coat hook/rack on which hangers, jackets, umbrellas, bags, scarves etc. can be placed decoratively and practically.

Lulu comes in 5 different sizes/depths and can be used as a "flower" bouquet on the wall...the combination and the lay-out is entirely up to each individual end-user and his/her creativity, resulting in every installation being entirely different.

Or it can be used more traditionally as single items.

Lulu has a finish in soft-touch lacquer, which gives a soft matte feel to the product, just like the velvet feeling from a flower leaf.

The shape of Lulu is welcoming, warm and positive and is therefore perfect for the wardrobe, the hallway, your bed room or even your living room. It is also available in brushed, stainless steel finish.
